

# WILDPEAK A/T AT3WA

The new WILDPEAK A/T generation, AT3WA, is engineered for **ANY ADVENTURE - ANY TIME - ANY WEATHER**. The AT3WA combines durable offroad ability and rugged terrain driving without compromises on the road. It represents a true **ALL TERRAIN** performance tyre.

## FEATURES AND BENEFITS

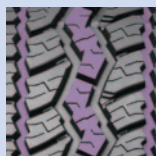

- Cutting Edge Tread design combined with a silica tread compound for even wear, snow traction and wet performance
- Excellent all-terrain performance, the best ever from FALKEN, thanks to its robust construction and cutting edge manufacturing
- Low noise emission and high ride comfort on road
- Improved self-cleaning effect in all small and large grooves
- Rugged characteristics and true all-season usability

# TREAD PATTERN TECHNOLOGY

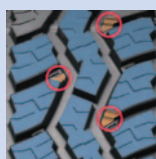

## FEATURES AND BENEFITS

### OPTIMISED TREADPATTERN

Center rib with zig-zag design and ribben shoulder grooves creating additional angles and edges as well as a more irregular pattern structure

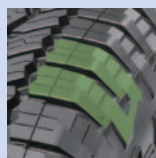

- Improved traction on and off the road
- Enhanced grip in mud and harsh weather conditions
- Superb self-cleaning properties

### RIGID TREAD BLOCKS

Long and wide tread blocks in center area and profile blocks with stepdown feature

- Increasing pattern rigidity and stiffness
- Even pressure distribution in footprint
- Increased braking performance and traction on loose unstable surfaces

### RUGGED SHOULDER AND UPPER SIDEWALL DESIGN

Aggressive upper sidewall feature along with offset shoulder blocks

- Stepdown shoulder and tooth design in upper sidewall
- Creating more gripping edges for more traction in off-road situations
- Protects tyre from sharp rocks

- Offroad Traction
- Wet Performance
- Dry Performance
- Winter Performance
